

The ISE HN 2026 exam, solved in the exam's own format

Same package names and method names as the exam, so you can compare with what you handed in. Verified: the 5 unit tests pass, and all 5 REST endpoints returned the right status codes.

Exercise	Files
1 Unit testing (20)	1_unit_testing/ : <code>CloudServer</code> , <code>AllocationResult</code> , <code>ServerTier</code> (package <code>de.tum.ise</code>), <code>CloudServerTest</code>
2 REST (25)	2_rest/ : <code>TicketService</code> (<code>de.tum.ise.service</code>), <code>TicketResource</code> (<code>de.tum.ise.rest</code>); <code>Ticket</code> and the application class are given
3 Modeling (20)	3_deployment_diagram.md
4 Black-box (15)	4_blackbox_answer.md : paste straight into the submission box
5 Quiz (20)	answers in ../ISEHN_2026_EXAM.md §5
